INFORMATION DISCLOSURE STATEMENT

Dear Sir:

Pursuant to 37 C.F.R. §§ 1.97 and 1.98, applicant(s) hereby submit(s) an Information Disclosure Statement for consideration by the Examiner.

I. **LIST OF PATENTS, PUBLICATIONS OR OTHER INFORMATION**

The patents, publications or other information submitted for consideration by the Office are listed on PTO-1449, attached hereto. The citation of this information by Applicant(s) is not necessarily an admission that the information (1) qualifies as prior art by virtue of its date of publication/availability, and/or that (2) the information is relevant to the patentability of the claims of this application.

II. COPIES

- a. Submitted herewith is a legible copy of (i) each U.S and foreign patent; (ii) each publication or that portion which caused it to be listed; and (iii) all other information or that portion which caused it to be listed.
- b. X This application relies, under 35 U.S.C. § 120, on the earlier filing date of prior application Serial No. 09/952,151, filed on 9/13/01 and 09/952,283 filed on 9/13/01. The following references cited in the attached 1449 forms were submitted to, and/or cited by, the Office in the prior application. Applicants have enclosed copies of these references for Examiner's convenience.

III. CONCISE EXPLANATION OF THE RELEVANCE

(check at least one box)

- a. X Except as may be indicated below in (b), all of the patents, publications or other information are in the English language or were cited in an English language Search Report, a copy of which is attached hereto (concise explanation not required).
- b. A concise explanation of the relevance of all patents, publications or other information listed that is not in the English language is as follows:
- c. X The following additional information is provided for the Examiner's consideration:

(1) U.S. Patent Application Publication No. US 2002/008379 A1, which was filed on October 19, 2001, published on July 4, 2002, and relates to U.S. Provisional Patent Application No. 60/242,222, which was filed on October 20, 2000;

(2) European Patent Application No. EP 1 191 253 A1, which was filed on September 11, 2001, published on March 27, 2002, and claims priority to U.S. Provisional Patent Application No. 60/231,653, which was filed on September 11, 2000; and

(3) European Patent Application No. EP 1 199 493 A2, which was filed on October 22, 2001, was published on April 24, 2002, and claims priority to U.S. Provisional Patent Application No. 60/242,222, which was filed on October 20, 2000.

Applicants make no representations as to whether any of these publications (each of which was published before the filing date of this application, but after the filing date of both applications from which this application claims priority) is prior art. Applicants merely are bringing these publications to the Examiner's attention because they each relate to a U.S. Provisional Patent Application that was filed prior to the filing date of both this application and the applications from which this application claims priority.
